

## **Chair's Report 20/21**

The club has been as active as ever and as usual, there is a long list of volunteers to thank. Orienteering is very dependent on its volunteers and these are often very skilled roles.

Thanks to (in no particular order):

The planners

The mapmakers

The organisers

The car park attendants

The website people

The results processors

The controllers

The team captains

The coaches

The committee members

The social media influencers

The newsletter writers

The results analysts

The drivers

The access officers

The printers

The cake bakers

The first aiders

The equipment maintainers/storers/orderers

It was great to see 2021 finish on a high with a third place at the Compass Sport Cup – certainly the best result I remember achieving and a credit to the membership for successfully navigating Covid and finishing all the stronger.

It is great to see the club maintains an active bunch of juniors and now a regular Tuesday night training (TNT) for juniors. WCOC also seems to have supplied a fresh cohort of Juniors to Edinburgh

It is also been a great year for club representation at World Champs/Cups; Home Internationals; training camps and plenty more to boot.

On a less successful note: we had to cancel a galoppen at Whinlatter this November due to a lack of volunteers. It probably comes as no surprise when you look at the efforts and energy the club has put into this year already.

Here's to a successful 2022

Steve Breeze
