

5. After The Event

1. If possible, pass on the registration sheets and Blue Case with download unit and printer to Roger on the night so that results can be processed. Money from event also to Roger.
2. When collecting in the controls, buddying or teaming up is encouraged.
3. However, if collecting in the controls alone:
 - a) leave an all controls map on your car with your probable route marked on (or notify a friend / partner of your route), or
 - b) arrange a 'safety call' with family, friend or club member when you have finished collecting in so that we know you have safely returned.
4. Remove any tape used to mark route to start / finish.
5. All the equipment should be returned to Roger as soon after the event as possible.
