Thur 21 August, Latterbarrow. Open fell with great views. See website for the parking details. Usual courses, long, short and novice. Starts 6-7pm. Cost £3/£1.50.

Sprint Series

The Autumn sprint series is taking shape at the moment with a seven event programme visiting Maryport, Cockermouth, Silloth, Whitehaven, Workington and Keswick. These events are always very popular and are ideal as an introduction to the sport. Please tell as many friends as possible about them and bring them along. There will be some fliers, so please take some of those and advertise the series as widely as you can.

2014 Galoppens

Please be sure you complete five galoppens on the same colour course to get your maximum points in the league!

Winter Series

Fancy planning one of the early events in the night series on some of the easier terrain? Mike Harrison would be keen to find you an area to plan on, and a Thursday evening date to suit you. If you have already had a go with a summer event then a night one could be right up your street!

Club running top

What do you think of a running vest (sleeveless) for urbanO in the club colours, similar to the current O-top? Would you buy one if the club bought a stock? What material would you like it made of? Any preferences?

Twitter. You can follow @WCOC2014

Lakes5

Day2 turned out really nice with sunshine! A great team effort showed everyone what WCOC can do. Many thanks to the key people, Rob Holder, Dave Fenwick and Bob Barnby for their time and effort in getting the basic framework in place. All went well and there were many complimentary comments about the courses.

Michael Pearson stole the show with five wins on M70 over the week! There will be many stories to tell from all the multi-day events this summer having had quite a few club members visiting Switzerland and Sweden (and perhaps even Croatia!). The next newsletter would benefit enormously from a retell of some of your exploits, so pen to paper and pass on to Graham Watson for inclusion in the next issue.

Keswick Museum

The Keswick Museum are planning an exhibition (for sometime in February 2015) of maps, their use and how they are made. We have been asked for some input as a club and are currently considering how we might be involved.

They may even entertain a talk (or series of talks) during the course of the exhibition. Anyone fancy being involved with that? Everything in the early planning stages so no firm timings as yet!

Do we have any videos to run on a screen to entertain viewers?

We could have sessions when club members could be present to explain and demonstrate. OCAD with maps at high resolution?

Keep an eye on the Facebook page for Club going-on!
